

FFC Folding Guide

for SCPH-10350 Thin Model
GameStar Model

Main Board End

Cable Specs:

50 Pins, 0.5mm pitch
Type B
(Different Ends)

Width: 25.4 mm / 1 inch
Length: 203 mm / 8 inch

**Spacing between these two lines
can vary if your cable is too long**

Printing Instructions:

Print this page at 100% size

Measure the FFC print
and make sure the size is correct

Cut out the FFC part and
overlay it over the actual FFC

SATA Board End

Folding Order

Tips:

Lay the paper guide
on top of the FFC

Bend over and crease over
the edge of a credit card

Never fold and crease
the cable onto itself

No need to fold 100% accurately
Try to get as close as possible

Mountain:

Put the card behind the cable
and fold away from you

Valley:

Put the card in front of the guide
and fold towards you
